

# SURAJ KASRUNG

Sion, Mumbai, India | surajkasrung1904@gmail.com | +91 87675 34061 | github.com/surajkasrung19

## SUMMARY

MERN Stack Developer with hands-on experience building and deploying full-stack web applications. Developed a live production-grade platform with role-based access, payment integration, and analytics dashboard. Skilled in React.js, Node.js, Express.js, and MongoDB, with strong focus on scalable backend systems and clean UI. Eager to contribute to real-world development projects.

## TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Mongoose
- **APIs & Auth:** REST APIs, JWT Authentication
- **Tools:** Git, GitHub, Postman
- **AI Tools:** Claude, Perplexity, Codex

## PROJECTS

**ConnectEase** | Tech: React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Tailwind CSS, Recharts

Live Link: <https://connectease-frontend.vercel.app>

- Built a full-stack home services marketplace with 3 role-based portals (Customer, Provider, Admin) — customers can browse services, book appointments, and pay online; providers manage jobs and track earnings; admin oversees users, bookings, and revenue analytics.
- Designed and implemented 40+ RESTful API endpoints across 7 route modules (auth, appointments, payments, providers, admin, feedback, support) with JWT middleware, role-based access control, and input validation.
- Integrated Razorpay payment gateway for secure online payments, Brevo SMTP API for transactional emails (registration, password reset, support), and SHA-256 token-based forgot password flow with 1-hour expiry.
- Built an Admin Revenue Analytics dashboard using Recharts with area, bar, line, and pie charts — displaying monthly profit trends, service-wise breakdown, booking conversion funnel, and top provider performance over a selectable 12-month period.
- Deployed on Vercel (React + Vite frontend) and Render (Node.js backend) with MongoDB Atlas as cloud database; implemented dynamic platform fee logic (3% of service price, min ₹10) and downloadable HTML payment receipts for customers.

**Personal Portfolio** | Tech: React.js, Vite, Node.js, Express.js, MongoDB, Resend API, Tailwind CSS, Framer Motion

Live Link : <https://mern-portfolio-jade.vercel.app>

- Developed a modern full-stack personal portfolio website with responsive UI, smooth animations, dark mode support, and dynamic project showcasing.
- Built a secure Admin Panel with authentication to manage projects, skills, experience, and contact messages dynamically through CRUD operations.
- Implemented RESTful APIs using Express.js and MongoDB Atlas for storing portfolio data and managing admin-controlled content updates.
- Integrated Resend email service for dynamic contact form submissions, enabling real-time email notifications directly from the portfolio website.
- Deployed frontend on Vercel and backend on Render with production-ready API integration, CORS handling, and cloud database connectivity

## EDUCATION

**Bachelor of Science in Information Technology (B.Sc. IT)**

Mumbai University -- D.G. Ruparel College of Arts, Science and Commerce | CGPA: 8.37

May 2026

**Higher Secondary Certificate (HSC)**

R.A.Podar College, Mumbai | Score: 84%

June 2023

**Secondary School Certificate (SSC)**  
Sadhana Vidyalaya, Mumbai | Score: 84%

June 2021

### **CERTIFICATIONS & ADDITIONAL INFORMATION**

---

**Certifications:** Programming with C and C++ (Intershala)

**Languages:** English, Hindi, Marathi
